about

Heyo, Devansh here!

A **graphic designer** and **illustrator** who believes in turning ideas into meaningful visuals. I love collaborating with people and bringing their vision to life through bold, expressive design that leaves a lasting impact.

Where I Am From

education

Birla Institute of Technology & Science, Pilani, Pilani campus

Bachelor of Engineering,
2023-27

Head of Social Media and Design

Civil Engineering Association, BITS Pilani
March 2025 - March 2026

What I Offer

Event & Brand Promotions

I design eye-catching posters, banners, and standees that make your events and campaigns stand out. I've helped brands connect with their audience through bold, clear, and energetic visuals.

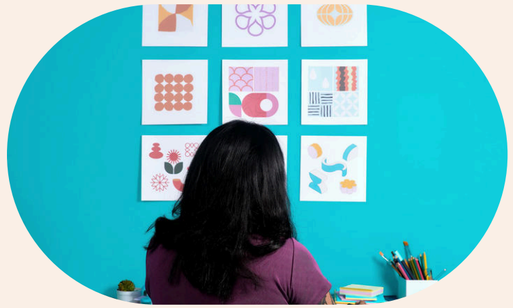

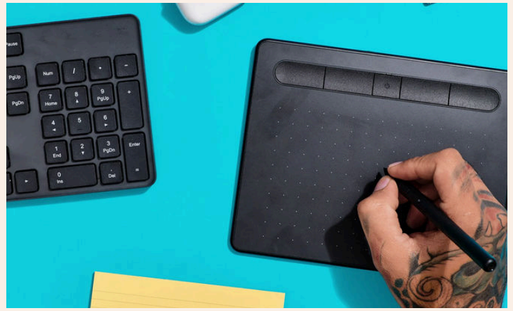

Illustration & Mascot Conceptualization

Looking for visuals that truly represent your brand? I bring ideas to life through expressive illustrations and mascots that tell your story — just like the BITS Pilani mascot.

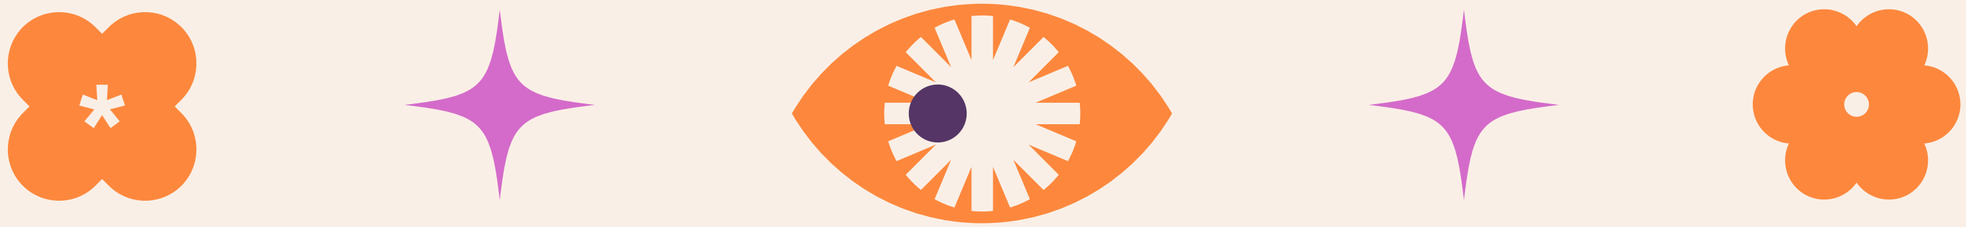

Social Media & Informational Graphics

I create scroll-stopping graphics for social platforms that not only look good but deliver your message effectively. Whether it's informative posts or event announcements, my work speaks for itself.

Back to **Overview Page**

I have been lucky enough to work with really cool folks and local brands,
I'd love to help you find your voice through visual art.

Here we go!

Work I Have Done

2023

Mascot for BITS Pilani

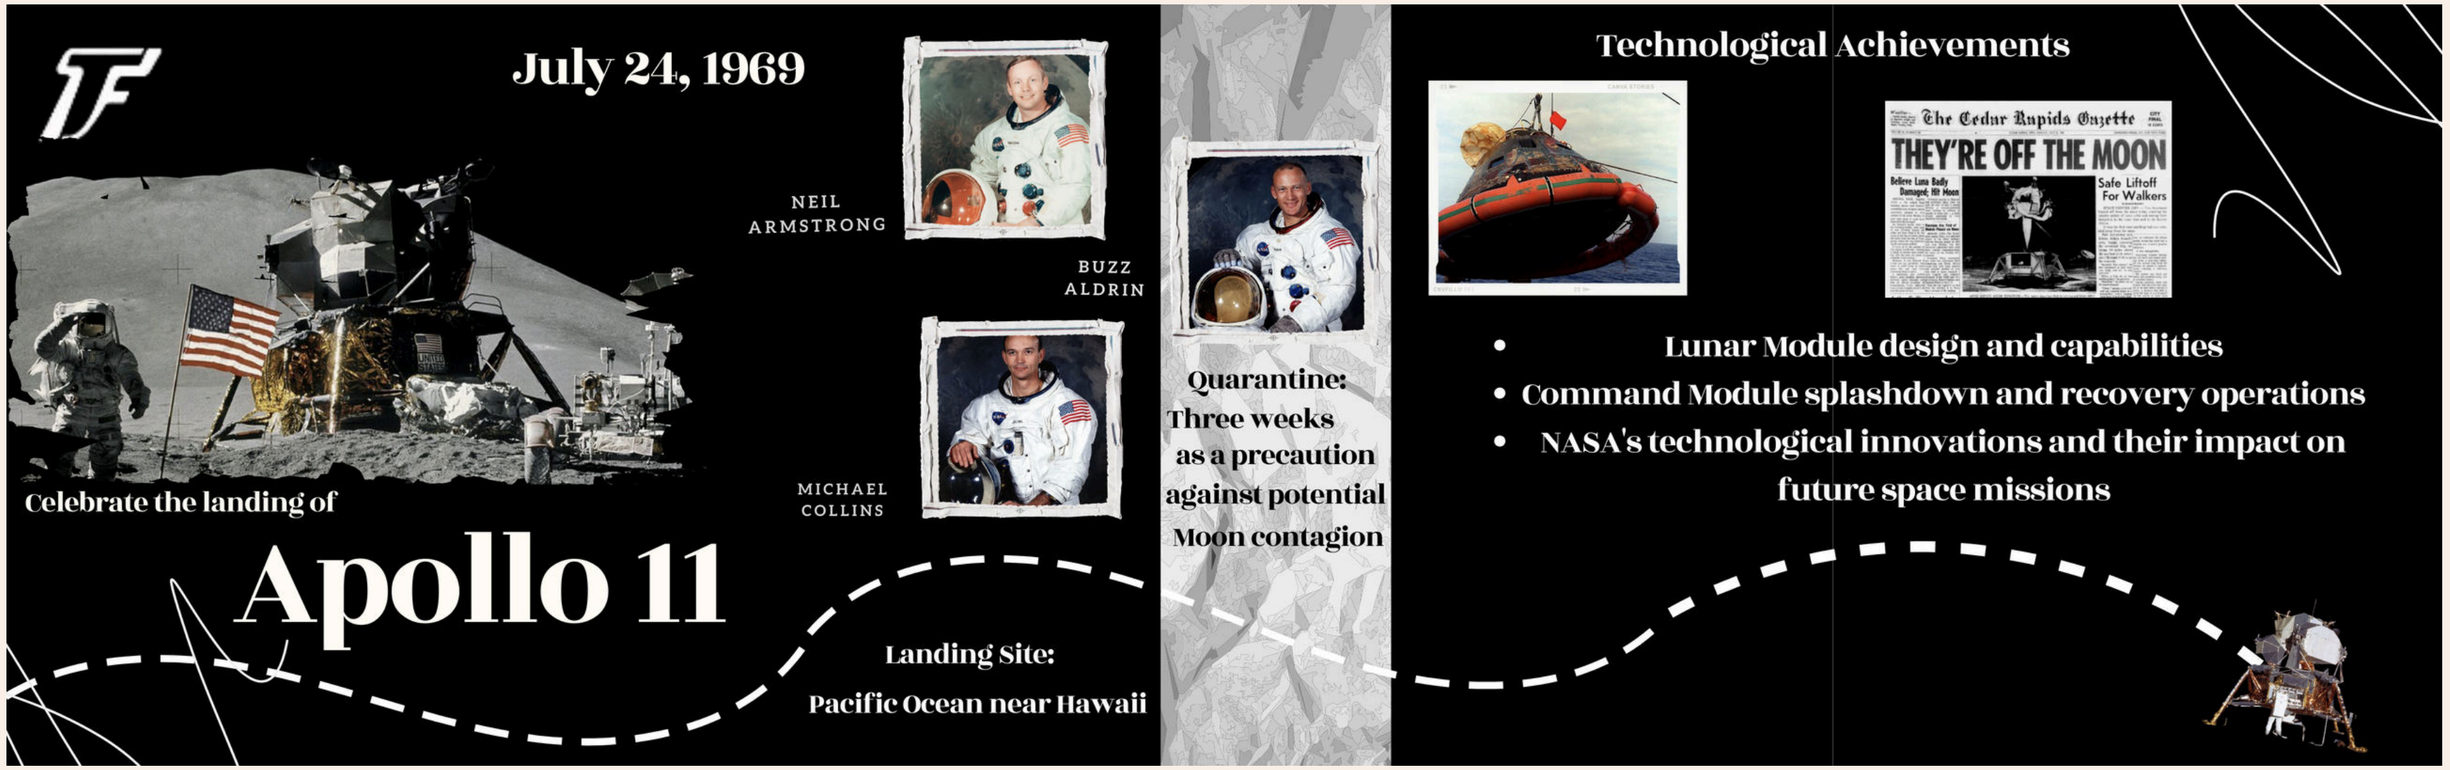

As BITS Pilani allows me to make my freedom for greater use, therefore, I chose my Mascot to be Eagle as it represents leadership, vision and freedom.
BITS Pilani also incorporates aspects such as:
Innovation and creativity : shown by glowing bulb on one hand
Excellence: shown by graduation cap, books on another hand and coat.
Diversity and unity: shown by Gears of various colours when combined.
BITS Pilani also encourages entrepreneurial spirit which is represented by rupees in glowing bulb.

2024

Techfest, IIT Bombay

As a Design Intern selected from over 5,000 applicants, I contributed to India’s largest technology festival by creating high-impact visual content. My work included designing carousels, posters, and standees for key events and personalities. I also crafted a dedicated standee for India’s most versatile anchor, Aman Malhotra. This role helped me refine my skills in visual storytelling, branding, and designing for large-scale engagement.

2025

National Service Scheme
BITS Pilani

As part of the NSS Blood Donation Camp team, I designed banners, posters, and standees that helped drive participation in one of the campus's largest social initiatives. I also created visual content for a school seminar to engage young students effectively.

2024

Oasis

Oasis is one of India's largest cultural festivals, hosted at BITS Pilani. I designed event-specific postcards and posters for various campus societies, aligning each visual with their unique themes and energy.

2024

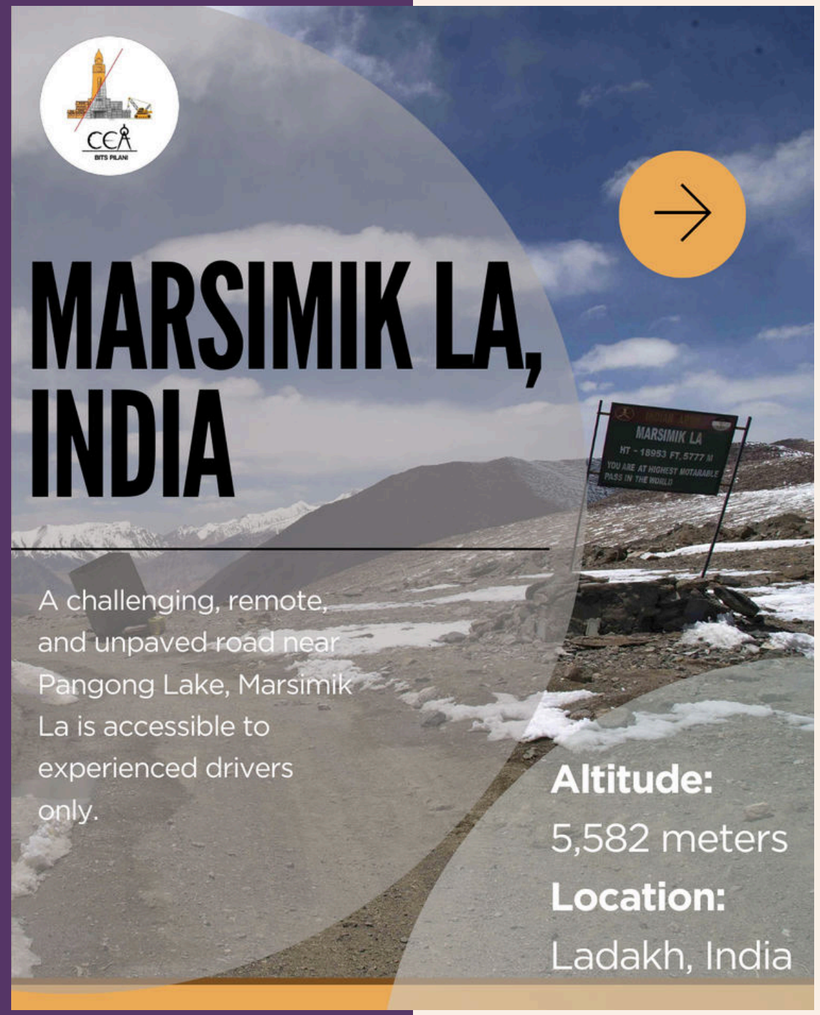

Civil Engineering Association, BITS Pilani

Created an informative post on the world's top 5 highest motorable roads, combining facts with clean visual layout. I also designed farewell invitation cards shared with seniors and professors, blending formal tone with elegant aesthetics.

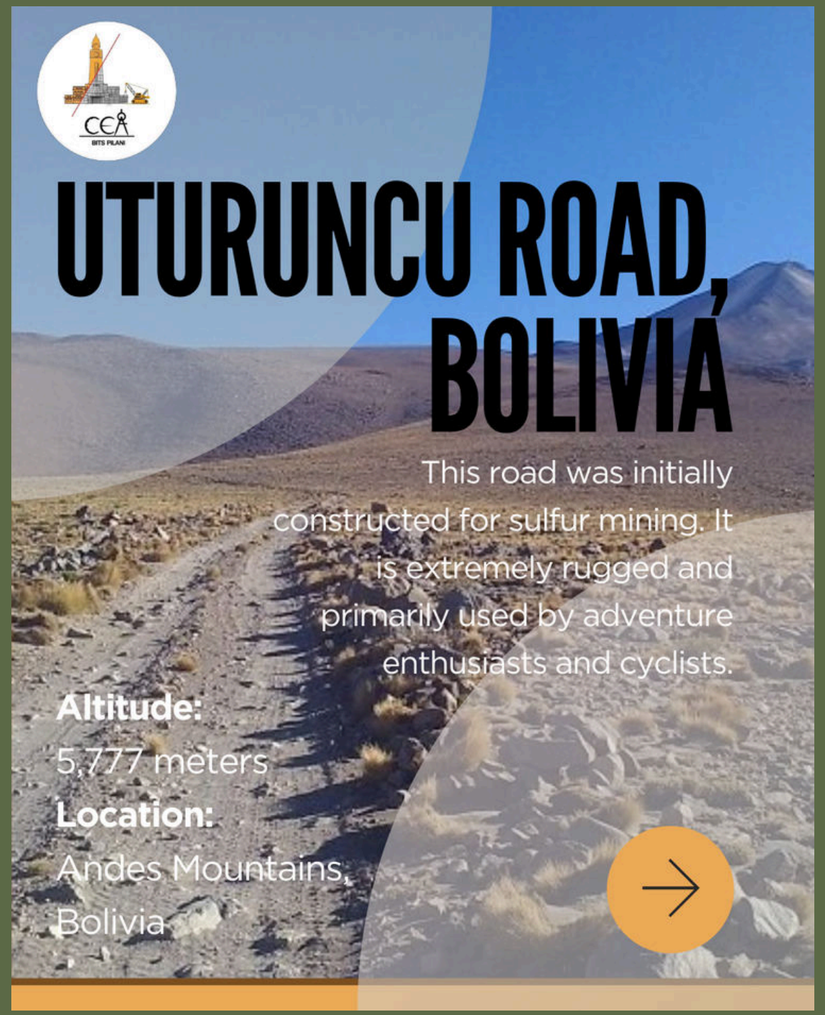

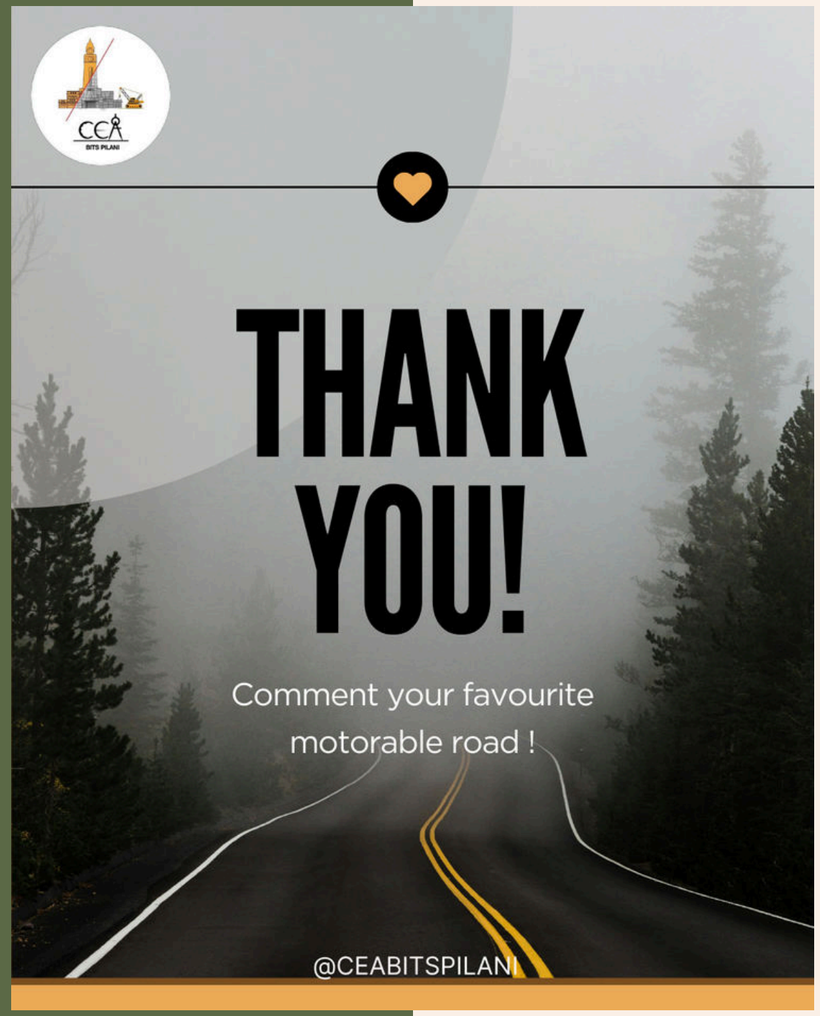

MANA PASS (DUNGRI LA), INDIA
LAST INDIAN VILLAGE
Located near the India-Tibet border, this road is primarily used by the military and requires special permits for access.
Altitude:
5,610 meters
Location:
Uttarakhand, India

MARSIMIK LA, INDIA
MARSIMIK LA
A challenging, remote, and unpaved road near Pangong Lake, Marsimik La is accessible to experienced drivers only.
Altitude:
5,582 meters
Location:
Ladakh, India

SEMO LA, TIBET (CHINA)
This road traverses the barren Tibetan plateau and is an alternate route to Mount Kailash. It is paved and relatively smooth.
Altitude:
5,566 meters
Location:
Tibetan Plateau, China

UTURUNCU ROAD, BOLIVIA
This road was initially constructed for sulfur mining. It is extremely rugged and primarily used by adventure enthusiasts and cyclists.
Altitude:
5,777 meters
Location:
Andes Mountains, Bolivia

THANK YOU!
Comment your favourite motorable road !

Sports

Designed energetic, visually engaging posters for two campus events: a Cricket Tournament organized by the Civil Engineering Association (CEA) and a Skating Camp hosted by the Skating Team of BITS Pilani. Each design was tailored to match the spirit and audience of the respective events.
